From  CAIRO - EGYPT

Dear Sir/Ma'am,

Thank you very much for your interest in reading my CV. I would like to introduce you that my full name is MUHAMMAD AHMAD ABDEL WAHAB ALKHATEEB, I have a BA in Art Education and certificates in IT and graphic design with more than 7 years of combined experience which includes graphic design for print, web design and commercial sign design and manufacturing.

I started my career in the 1996's pursuing the art of Arabic Calligraphy with the famous Egyptian artist who made the money coins, but slowly gravitated to commercial art and eventually started my own commercial sign business in 2000.

In 2001 I received a BA degree from Art Education Faculty - Helwan University and worked in the commercial printing and trade show industries as a graphic production department manager and graphic designer/production designer until 2002.

Since then I have been freelancing and providing excellence in custom creative graphic design services for print, web and signage. I have many happy customers testifying to the quality of my work.

Please take a tour through my official website: <http://www.gstit.net>

If you are interested, please feel free to contact me. I look forward to meeting with you to discuss the ways my skills may best serve your company.

Best Regards,

Muhammad Al-Khateeb
